

Articulation Agreement with North Metro Technical College

Ashford University and North Metro Technical College have entered into this ARTICULATION AGREEMENT in the spirit of cooperation and to mutually recognize each other as quality institutions of higher learning. The purpose of the agreement is to enable North Metro Technical College students who transfer to Ashford University to carry with them the credit they have already earned for as much relevant study as possible. The ARTICULATION AGREEMENT provides a structure through which transfer articulation on all levels can be supported.

Bachelor of Arts in:

- Accounting
- Business Administration
- Business Economics
- Business Information Systems
- Communication Studies
- Early Childhood Education
- Early Childhood Education Administration
- Health Care Administration
- Health Care Studies
- History
- Organizational Management
- Political Science & Government
- Psychology
- Public Relations and Marketing
- Public Administration
- Social and Criminal Justice
- Social Science
- Social Science w/Education concentration
- Sociology
- Sports & Recreation Management

Transfer Elements

North Metro Technical College graduates with a minimum cumulative GPA of 2.0 entering under the terms of this agreement are guaranteed admission into a Bachelor's degree program at Ashford University provided they meet all admissions requirements for the degree program. The transfer guides outlined in this Articulation Agreement are applicable to students transferring to Ashford University from North Metro Technical College during the Catalog year 2008-2009.

North Metro Technical College students transferring to Ashford University will have all college-level academic credit (generally, 100-level or higher), and with a grade of "C-" or better, accepted for transfer on a course-by-course basis into the academic categories that are the best fits (e.g. elective, General Education requirement, major course). Students may transfer up to 90 Community College credits.

Credits must have been earned with grade of "C-" or better from regionally accredited or selected nationally accredited colleges or universities. Transfer credits will generally be evaluated from each college or university independently.

A quarter credit hour taken in transfer will be equated to two-thirds of a semester hour. When quarter credits are used as equivalencies to General Education requirements, the difference in required credits must be earned through completion of coursework necessary to achieve the total required credits for graduation. For example: A 3-quarter credit course may be accepted as meeting General

Education core or competency requirements but will equate to 2.0 credits. Therefore, one additional credit of coursework will be needed to meet graduation requirements. A minimum of 5 quarter credits in Natural Science is required to meet the Physical World requirement.

A maximum of 9 credits with a "D" grade are transferable as long as the student's cumulative overall GPA is 2.0 or above.

"D" credits cannot be applied toward the major or toward General Education competencies.

Transfer credit may not be granted when it duplicates college credit previously earned. Credit will not be given for the same learning twice.

All students must successfully complete a minimum of 30 upper-division credits to graduate. Lower-division credits transferred to satisfy upper-division courses do not constitute completion of the 30 upper-division credits required for graduation.

Graduate-level transfer credits cannot be applied to undergraduate degrees.

The College of External Studies places no general age limit on transfer credit from regionally accredited and selected nationally accredited institutions, with possible exceptions in subject areas where there has been significant change. Requirements are specifically noted in degree/major requirements.
